# Basic Icons

View LESS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/less/core.less)    View SASS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/scss/_core.scss)

 fa-camera-retro

You can place Font Awesome icons just about anywhere using the CSS Prefix `fa` and the icon's name. Font Awesome is designed to be used with inline elements (we like the `<i>` tag for brevity, but using a `<span>` is more semantically correct).

```
<i class="fa fa-camera-retro"></i> fa-camera-retro
```

> ℹ If you change the font-size of the icon's container, the icon gets bigger. Same things goes for color, drop shadow, and anything else that gets inherited using CSS.

# Larger Icons

View LESS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/less/larger.less)    View SASS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/scss/_larger.scss)

 fa-lg

 fa-2x

 fa-3x

 fa-4x

 fa-5x

To increase icon sizes relative to their container, use the `fa-lg` (33% increase), `fa-2x`, `fa-3x`, `fa-4x`, or `fa-5x` classes.

```
<i class="fa fa-camera-retro fa-lg"></i> fa-lg
<i class="fa fa-camera-retro fa-2x"></i> fa-2x
<i class="fa fa-camera-retro fa-3x"></i> fa-3x
<i class="fa fa-camera-retro fa-4x"></i> fa-4x
<i class="fa fa-camera-retro fa-5x"></i> fa-5x
```

> ⚠ If your icons are getting chopped off on top and bottom, make sure you have sufficient line-height.

# Fixed Width Icons

View LESS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/less/fixed-width.less)    View SASS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/scss/_fixed-width.scss)

| |
|---|
| 🏠 Home |
| 📖 Library |
| ✏ Applications |
| ⚙ Settings |

Use `fa-fw` to set icons at a fixed width. Great to use when different icon widths throw off alignment. Especially useful in things like nav lists & list groups.

```
<div class="list-group">
  <a class="list-group-item" href="#"><i class="fa fa-h
ome fa-fw"></i>  Home</a>
  <a class="list-group-item" href="#"><i class="fa fa-b
ook fa-fw"></i>  Library</a>
  <a class="list-group-item" href="#"><i class="fa fa-p
encil fa-fw"></i>  Applications</a>
  <a class="list-group-item" href="#"><i class="fa fa-c
og fa-fw"></i>  Settings</a>
</div>
```

# List Icons

View LESS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/less/list.less)    View SASS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/scss/_list.scss)

- ☑ List icons
- ☑ can be used
- ⬚ as bullets
- ⬛ in lists

Use `fa-ul` and `fa-li` to easily replace default bullets in unordered lists.

```
<ul class="fa-ul">
  <li><i class="fa-li fa fa-check-square"></i>List icon
s</li>
  <li><i class="fa-li fa fa-check-square"></i>can be us
ed</li>
  <li><i class="fa-li fa fa-spinner fa-spin"></i>as bul
lets</li>
  <li><i class="fa-li fa fa-square"></i>in lists</li>
</ul>
```

## Bordered & Pulled Icons

View LESS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/less/bordered-pulled.less)   View SASS
(https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/scss/_bordered-pulled.scss)

...tomorrow we will run faster, stretch out our arms farther... And then one fine morning— So we beat on, boats against the current, borne back ceaselessly into the past.

Use `fa-border` and `pull-right` or `pull-left` for easy pull quotes or article icons.

```
<i class="fa fa-quote-left fa-3x pull-left fa-border"><
/i>
...tomorrow we will run faster, stretch out our arms fa
rther...
And then one fine morning— So we beat on, boats against
 the
current, borne back ceaselessly into the past.
```

## Animated Icons

View LESS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/less/animated.less)   View SASS
(https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/scss/_animated.scss)

Use the `fa-spin` class to get any icon to rotate, and use `fa-pulse` to have it rotate with 8 steps. Works well with `fa-spinner`, `fa-refresh`, and `fa-cog`.

```
<i class="fa fa-spinner fa-spin"></i>
<i class="fa fa-circle-o-notch fa-spin"></i>
<i class="fa fa-refresh fa-spin"></i>
<i class="fa fa-cog fa-spin"></i>
<i class="fa fa-spinner fa-pulse"></i>
```

❶ CSS3 animations aren't supported in IE8 - IE9.

## Rotated & Flipped

View LESS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/less/rotated-flipped.less)   View SASS
(https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/scss/_rotated-flipped.scss)

- ▊ normal
- ◀ fa-rotate-90
- ⌂ fa-rotate-180
- ▶ fa-rotate-270
- ▊ fa-flip-horizontal
- ⌂ fa-flip-vertical

To arbitrarily rotate and flip icons, use the `fa-rotate-*` and `fa-flip-*` classes.

```
<i class="fa fa-shield"></i> normal<br>
<i class="fa fa-shield fa-rotate-90"></i> fa-rotate-90<
br>
<i class="fa fa-shield fa-rotate-180"></i> fa-rotate-18
0<br>
<i class="fa fa-shield fa-rotate-270"></i> fa-rotate-27
0<br>
<i class="fa fa-shield fa-flip-horizontal"></i> fa-flip
-horizontal<br>
<i class="fa fa-shield fa-flip-vertical"></i> icon-flip
-vertical
```

## Stacked Icons

View LESS (https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/less/stacked.less)   View SASS
(https://github.com/FortAwesome/Font-Awesome/blob/v4.3.0/scss/_stacked.scss)

fa-twitter on fa-square-o

fa-flag on fa-circle

fa-terminal on fa-square

fa-ban on fa-camera

To stack multiple icons, use the `fa-stack` class on the parent, the `fa-stack-1x` for the regularly sized icon, and `fa-stack-2x` for the larger icon. `fa-inverse` can be used as an alternative icon color. You can even throw larger icon classes on the parent to get further control of sizing.

```
<span class="fa-stack fa-lg">
  <i class="fa fa-square-o fa-stack-2x"></i>
  <i class="fa fa-twitter fa-stack-1x"></i>
</span>
fa-twitter on fa-square-o<br>
<span class="fa-stack fa-lg">
  <i class="fa fa-circle fa-stack-2x"></i>
  <i class="fa fa-flag fa-stack-1x fa-inverse"></i>
</span>
fa-flag on fa-circle<br>
<span class="fa-stack fa-lg">
  <i class="fa fa-square fa-stack-2x"></i>
  <i class="fa fa-terminal fa-stack-1x fa-inverse"></i>
</span>
fa-terminal on fa-square<br>
<span class="fa-stack fa-lg">
  <i class="fa fa-camera fa-stack-1x"></i>
  <i class="fa fa-ban fa-stack-2x text-danger"></i>
</span>
fa-ban on fa-camera
```
